

Invitation à la Journée de la Recherche

Mercredi 3 juin 2026
Auditoire César-Roux
CHUV

Prizes sponsored by

Training credits

- Société Suisse de Médecine Interne Générale (SSMIG) : 5 credits
- Association des laboratoires médicaux de Suisse (FAMH) : 5.5 credits
- UNIL, Faculté de biologie et de médecine: 1 ECTS for a talk, 0.5 ECTS for a poster

8:45 – 9:15	Posters to be put on display
9:15 – 9:30	Welcome Pre D. Golshayan & Pr M. Perreau
9:30 – 10:05	Key-note speaker (Chair : Pr M. Perreau) Pr Gilles Wandeler (Institute of Social and Preventive Medicine and Dpt of infectious diseases, Bern) – Elimination of hepatitis B: challenges and opportunities.
10:05 – 10:30	Dre Elodie Ristorcelli (CHUV) – Présentation de la biobanque
10:35 – 11:25	Oral Presentations (Chairs : Pr J. Gouttenoire, Pr G. Sykiotis) <i>6 minutes presentation + 4 min discussion</i>
10:35 – 10:45	Monica ROMAN-TRUFERO (HEM) - Ribosome collision signaling regulates translational recovery following proteasome inhibition in multiple myeloma.
10:45 – 10:55	Yiqun ZHANG (DER) - NF-kb signaling orchestrates cancer-nerve interactions driving perineural invasion in human squamous cell carcinoma
10:55 – 11:05	David CUNE (IAL) - Autophagy in dendritic cells drives immunosenescence through inflammatory reprogramming and CD4 T cell dysregulation.
11:05 – 11:15	Cristiana CENTOFANTI (LCC) - Slc6a8Y389C knock-in rat model of creatine transporter deficiency exhibits changes in cardiac phenotype and motor dysfunction.
11:15 – 11:25	Evgeniya SAVE-TROFIMENKO (IMUL) - Deciphering the Non-Canonical Endocytic Trafficking of Chlamydia trachomatis: A Rab14-Dependent Pathway.
11:25 – 12:00	Poster Session A Posters 1-34. Discussions in the presence of the authors
12:00 – 13:00	Lunch – sandwiches available
13:00 – 13:35	Key-note speaker (Chair : Pre D. Golshayan) Pr Victor Appay (INSERM, ImmunoConcept unit, Bordeaux) – T Cell Responsiveness in Ageing: Challenges and Opportunities in Viral Immunity and Vaccination.
13:35 – 14:25	Oral Presentations (Chairs : Pre P. D'Amelio, Pr O. Gaide) <i>6 minutes presentation + 4 min discussion</i>
13:35 – 13:45	Giulia DE BERNARDI (MIN) - Unravelling the molecular signature of persistent HIV-specific CD8 T cells dysfunction in people living with HIV (PWH).
13:45 – 13:55	Sergey ORESHKOV (EDM) - Transcriptomic Dynamics During Minipuberty Reveal Divergent Developmental Programs in Preterm and Full-Term Infants.
13:55 – 14:05	Eleonore WOLTERS (IAL) - Serum IgG Autoreactome screening in Systemic Lupus Erythematosus: Insights into Antibody Correlation and Cross-Reactivity.
14:05 – 14:15	Baptiste GUEY (IPA) - Clonal Architecture and Evolution of T Follicular Helper Lymphomas Revealed Through Paired Multisite and Longitudinal Sampling.
14:15 – 14:25	Maria MORBIDELLI (GER) - Targeting “inflammaging” by NAD+ boosting plus CD38 inhibition as longevity nutritional strategy in frail older subjects: the CORAL study.

14:25 – 15:00	Poster Session B Posters 35-73. Discussions in the presence of the authors
15:00 – 15:30	Coffee Break
15:30 – 16:20	Oral Presentations (Chairs : Dre M. Méan, Pr P. Marques-Vidal) <i>6 minutes presentation + 4 min discussion</i>
15:30 – 15:40	Jean REGINA (MIA) - Antibiotic Overuse in Hospitalized Older Adults: insights from the LUCID National Data Stream.
15:40 – 15:50	Karim CHOUGHANE (EDM) - Resting Energy Expenditure in Klinefelter Syndrome: Prevalence of Hypometabolism and Impact of Testosterone Replacement Therapy.
15:50 – 16:00	Nina CANOVA (SPL) - Palliative and end-of-life care for LGBTIQ+ people in Switzerland: Exploring healthcare provider perceptions and practices.
16:00 – 16:10	Gerasimos TSILIMIDOS (HEM) - Myeloid neoplasms post cytotoxic treatment in Swiss population.
16:10 – 16:20	Elena GARCIA /Thomas BRAHIER (URG/MIN) - Better than BLUE? A high-yield four-zone scanning protocol for pneumonia diagnosis.
16:30 – 17h00	Work in progress : presentations of previous awardees of the 2025 DM-DMLP Bourses (Chair: M. Konrad) <i>7 min presentation + 3 min discussion</i>
	Durre SHEHWAR, Laboratoire d'hématologie (HEM, DMLP) Role of cell-free mitochondrial DNA in platelet hyperactivation: implications for cardiovascular disease in diabetes mellitus.
	Alice HORISBERGER, Service d'immunologie et allergie (IAL, DM) The Mapping Of immune Signatures in Auto-Immune Connective tissue diseases (MOSAIC) project.
	Henri PERRIN, Service de gériatrie et réadaptation gériatrique (GER, DM) Development of a New Prototype of Delirium Room for the Care of Acute Geriatric Patients with Delirium: The OPERA Project.
17:00 – 17:15	Announcements – Awards
	Chair: Pr M. Bernard
	Winners of the prizes for the best posters Winners of the prizes for the best oral presentations Winners of the DM-DMLP Bourses
17:15	Cocktail and social networking
