

Dr. Jean-Luc C. Urbain, MD, PhD, CPE, FASNC

President, SNMMI

Society of Nuclear Medicine & Molecular Imaging

1850 Samuel Morse Drive, Reston, VA 20190

Biography:

A native of Belgium, Dr. Urbain earned his Medical Degree at the University of Louvain, Belgium, and then pursued residency training in Internal Medicine and Nuclear Medicine at the University Hospital of the University of Louvain in Brussels, Belgium. He subsequently obtained a Ph.D. in Genetics and Molecular Biology at Temple University in Philadelphia.

Professor of Imaging, Medicine, and Biology for about three decades, Urbain has held leadership and executive positions in Medical Imaging and Medicine in Belgium at the University of Leuven, in Canada at the University of Western Ontario and in the US at Temple University, Fox Chase Cancer Center, The Cleveland Clinic, the VA Administration, Wake Forest University/Baptist Medical Center and Roswell Park Cancer Center.

During his career he had the opportunity and privilege to visit hospitals and medical centers and give lecture on all continents. Urbain has extensive experience and expertise in committees and boards leadership, in the management of integrated health care systems and patient advocacy groups and at regional, national, and international levels of government. He has also served as consultant and advisor for Pharmaceutical, Radiopharmaceutical and Medical Systems companies. He worked closely with national and international medical associations and government health authorities to mitigate the major health and medical isotopes crises of 2007-2008, analyzed and helped establish medical resources needs, benchmarks and allocation for key medical service areas. Urbain was appointed as Secretary of the Belgian Society of Nuclear Medicine in the early 90s', President of the Canadian Association of Nuclear Medicine (CANM 2006-2011) and President of the Eastern Great Lakes Chapter of the SNMMI (2010-2012). Urbain assumed the Presidency of the WFNMB between 2021 and 2022 and he is now the President of the SNMMI.

His current interests are in Precision Medicine and Theranostics, Graduate and Postgraduate Physicians and Nurses Education, Patients' Education and Advocacy.

TITLE OF THE CONFERENCE:

Precision Medicine, Thera(g)nostics and the SNMMI Programs

THURSDAY, OCTOBER 9th, 2025

10 AM to 11 AM

AUDITORIUM HE - A

 HOPITAL DES ENFANTS / AUDITOIRE A (rue du Bugnon 50 / 1ST FLOOR – LOCAL 238) LAUSANNE, Switzerland

OR VIA WEBEX
