

## **COST Action BM1105**

### **GnRH deficiency : Elucidation of the Neuroendocrine Control of Reproduction Short-term Scientific Mission Awardees 2014**

- Awardee:** Valentina Andre, University of Milan, Italy  
**Topic:** Identification of new genes involved in GnRH neurons development using GFP-tagged GnRH tg zebrafish  
**Host:** Prof. Yoav Gothilf, Tel Aviv University, Tel Aviv, Israel
- Awardee:** Andrew Dwyer, University of Lausanne, Switzerland  
**Topic:** Examining coping and health promoting behavior in CHH  
**Host:** Dr. Richard Quinton, University of Newcastle-Upon-Tyne, Newcastle-Upon-Tyne, United Kingdom
- Awardee:** Erik Hrabovszky, Institute of Experimental Medicine, Hungarian Academy of Sciences, Budapest, Hungary  
**Topic:** Immunohistochemical detection of cGMP to reveal nitric oxide target cells  
**Host:** Dr. Vincent Prevot, INSERM U837, Lille, France
- Awardee:** Johanna Kansakoski, Helsinki University, Finland  
**Topic:** Characterization of interactions between a novel KS candidate gene and the FGFR1 signaling network  
**Host:** Prof. Nelly Pitteloud, University of Lausanne, Switzerland
- Awardee:** Carina Lund, Helsinki University, Finland  
**Topic:** Isolation and characterization of mouse GnRH neurons  
**Host:** Dr. Paolo Giacobini, INSERM U837, Lille, France
- Awardee:** Brooke Tata, Paris Diderot University, France  
**Topic:** An innovative approach to delineate the mechanisms in the re-wiring of the GnRH network  
**Host:** Prof. Allan Herbison, University of Otago, New Zealand
- Awardee:** Dr. Panos Ziros, University of Patras, Greece  
**Topic:** Exploration of the involvement of stress response pathways in GnRH deficiency  
**Host:** Prof. Nelly Pitteloud, University of Lausanne, Switzerland
