

COST Action BM1105

GnRH deficiency : Elucidation of the Neuroendocrine Control of Reproduction Short-term Scientific Mission Awardees 2015

Awardee: Dr. Livio Casarini, University of Modena & Reggio Emilia, Italy

Topic: Circadian clock and fertility

Host: Prof. Urs Albrecht, University of Fribourg, Switzerland

Awardee: Dr. Daniele Conte, University of Turin, Italy

Topic: A direct analysis of coding and non-coding RNAs regulated by Dlx5 in ex vivo GnRH neurons.

Host: Dr. Paolo Giacobini, INSERM U837, Lille, France

Awardee: Vincent Hellier, GIGA Neurosciences, Liege, Belgium

Topic: Lordosis pathway: Focus on possible nitric oxide synthase and GPR147/GPR47 coexpression

Host: Prof. Manuel Tena-Sempere, University of Cordoba, Spain

Awardee: Zofia Kolesinska, University of Poznan, Poland

Topic: Hypogonadotropic Hypogonadism in Polish patients

Host: Prof. Nelly Pitteloud, CHUV & the University of Lausanne, Switzerland

Awardee: Dr. Dana Manda, National Institute of Endocrinology (C.I.Parhon), Bucharest Romania

Topic: Bioinformatic tools for analysing genomic and transcriptomic high throughput data

Host: Dr. Brian J. Stevenson, Swiss Institute of Bioinformatics, Lausanne Switzerland

Awardee: Dr. Marilena Marraudino, University of Turin, Italy

Topic: Kisspeptin, NPY and MSH systems, as targets for the action of the obesogenic food compound (geniste)

Host: Dr. Matthieu Keller, INRA, Nouzilly, France

Awardee: Sara Trova, Neuroscience Institute Cavalieri Ottolenghi, Turin, Italy

Topic: The interplay between GnRH system and Adult Neurogenesis

Host: Dr. Paolo Giacobini, INSERM U837, Lille, France
