

## **COST Action BM1105**

### **GnRH deficiency : Elucidation of the Neuroendocrine Control of Reproduction Short-term Scientific Mission Awardees 2016**

**Awardee:** Aleksandar Baburski, University of Novi Sad, Serbia

**Topic:** Role of circadian clock in regulation of male reproduction.

**Host:** Prof. Urs Albrecht, University of Fribourg, Switzerland

**Awardee:** Dr. Ivan Bassi, University of Milan, Italy

**Topic:** Zebrafish tool for the study of human PROKR2 genetic variants impact on GnRH neuronal development

**Host:** Prof. Yoav Gothilf, Tel-Aviv University, Israel

**Awardee:** Dr. Marilena Marraudino, Department of Neuroscience, University of Turin, Italy

**Topic:** The effects of Genistein on neuronal differentiation in vitro

**Host:** Dr. Luis Miguel Garcia-Segura, Cajal Institute, Madrid, Spain

**Awardee:** Sara Trova, Neuroscience Institute Cavalieri Ottolenghi, Turin, Italy

**Topic:** Analysis of olfactory-dependent 'reproductive responses' in the GnRH::Cre;DicerloxP/loxP mice

**Host:** Dr. Julie Bakker, University of Liège, Belgium

**Awardee:** Dr. Cheng Xu, University of Lausanne, Switzerland

**Topic:** Clinical research on kisspeptin in reproductive disorders

**Host:** Prof. Waljit Dhillon, Imperial College, London, United Kingdom
