

SWISS SEMINAR IN THE HISTORY OF MEDICINE

Schweizerisches Seminar für Geschichte der Medizin /
Séminaire suisse d'histoire de la médecine

2023-2024

THERAPEUTIC APPROACHES

A Swiss-wide lecture series jointly organized by the chairs and institutes of the history of medicine/medical humanities in Bern, Fribourg, Geneva, Lausanne, and Zürich. The lectures rotate among the participating institutions. Further information (exact location, room number) will be available shortly before the respective event on the website of the Swiss Society for the History of Medicine and Science.
