

## List of publications of the last 5 years

More than 450 manuscripts have been published from 1996 to May 2020. These include 114 original articles published during the last 5 years (see list in table A). Most of the manuscripts may be retrieved by a Pubmed search using "G. Greub" as author (n=436). I also published several articles (mainly educational reviews for clinicians) in Swiss Journals, as well as reviews, case reports, letters and editorials in international peer-reviewed Journals, which corresponds to 73 additional publications for the last 5 years (see Table B). Thus, from 1<sup>st</sup> January 2016 to end January 2021, there is a total of 189 publications. Publications before 2015 are not listed below; the list of all publications is available on the following website:

[http://www.chuv.ch/microbiologie imu\\_home/imu-recherche/imu-research-groups/imu-research-greub.htm](http://www.chuv.ch/microbiologie imu_home/imu-recherche/imu-research-groups/imu-research-greub.htm).

h-index = **71** (done on Google Scholar on 29<sup>th</sup> January 2021)

5-year h-index = **46** (h-index over last 5 years)

i10-index = **280** (number of publications with more than 10 citations)

Total number of publications on Pubmed = **436**

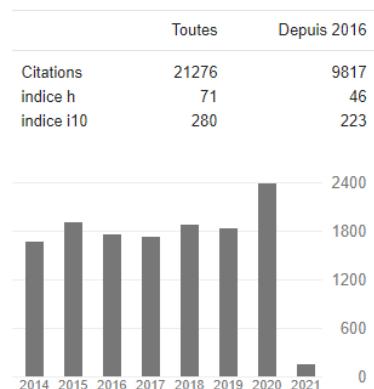

Number of citations = **21'276** (on Google Scholar)

Estimated average of citations per publication = **48.8**

According to Expertscape, based on 5'032 publications (since 2010), G Greub was on 27 September 2020, the top-rated expert on **Chlamydiales** in the World.

Chlamydiales is the bacterial order that includes human and animal pathogens such as Chlamydia & Waddlia: <https://expertscape.com/ex/chlamydiales>

G Greub was also ranked number 5 & 27 on the topic amoeba & bacteremia.
