Dear Colleagues,

We are very happy to welcome you in Lausanne.

The upcoming annual conference of the Swiss Stroke Society at the CHUV is dedicated to a wide range of topics including the pre-hospital phase, acute imaging, polymorbidity, vasculitis and asymptomatic aneurysms. At the same time, there will be plenty of room for discussion and research presentations. This year, the chair positions will be entrusted to our young colleagues.

We are particularly proud that following the conference, the first “Symposium of the Swiss Stroke Nursing Network” will take place organized by the Swiss Stroke Nursing Network. This should lay the foundation for a Swiss-wide continuing education in stroke care and facilitate our interprofessional collaborations.

Welcome to Lausanne!

Yours

Prof. Dr. med. Patrik Michel  
Congress President

Prof. Dr. med. Marcel Arnold  
President Swiss Stroke Society
