PERI-OPERATIVE IMMUNOTHERAPY FOR HEAD AND NECK CANCER

Thursday 8th & Friday 9th January 2026

Dear Participants,

We would like to welcome you to this workshop to explore the role of immunotherapy in the peri-operative management of head and neck carcinomas, organized by the European Head and Neck Society (EHNS).

The first day will provide a scientific overview of the immunological context (tumour micro-environment, the influence of local therapies, predictive immune biomarkers and new IO strategies) as well as clinical trials on neoadjuvant and adjuvant immunotherapies.

The second day will be entirely devoted to interactive round-table discussions in which experts and audience members will debate practical questions regarding surgical procedures after neoadjuvant IO, combination strategies and sequencing, and assessment of treatment response.

We all look forward to seeing you in January 2026.

Many thanks in advance.

Yours sincerely,

Christian Simon, M.D.
Professor and Chairman
Department of Otolaryngology, Head and Neck Surgery, CHUV
University of Lausanne – Switzerland

PERI-OPERATIVE IMMUNOTHERAPY FOR HEAD AND NECK CANCER

Speakers and moderators

SIMON Christian,
Lausanne

WOJCIECH Golusinski,
Poznan

LANG Stefan,
Essen

FERNANDEZ Fernandez Mario,
Madrid

BRAKENHOFF Ruud,
Amsterdam

BOSSI Paolo,
Milan

BRANA Irene,
Barcelona

DIETZ Andreas,
Leipzig

NANKIVELL Paul,
Birmingham

KOLJENOVIC Senada,
Antwerpen

SUCCO Giovanni,
Turin

PRAVEEN Prav,
Birmingham

HOSAL Sefik,
Ankara

PALERI Vin,
London

LE TOURNEAU Christophe,
Paris

HAGMANN Patrick,
Lausanne

PSYRRI Amanda,
Athen

TRIBIUS Silke,
Hamburg

TAO Yun-Gan,
Paris

VAN DE VEN Rieneke,
Amsterdam

PERI-OPERATIVE IMMUNOTHERAPY FOR HEAD AND NECK CANCER

Day 1 - Thursday 08th January 2026

Understanding the immunology of head and neck cancers

CHAIR : Wojciech Golusinski, Prav Praveen

08:45 - 09:00	Introduction to the meeting	Giovanni Succo, Christian Simon
09:00 - 09:30	Immune landscape of HNSCCs	Rieneke van de Ven
09:30 - 10:00	Impact of loco-regional treatment on immune response in HNSCC	Paul Nankivell
10:00 - 10:30	HPV and immuno-biomarkers to predict HNSCC outcome	Ruud Brakenhoff
10:30 - 11:00	Coffee break	
11:00 - 11:30	MSD Symposium: How Check-point inhibitors work and how to improve them	
11:30 - 12:00	CAR-T-cells, therapeutic cancer vaccines and other IO-strategies	Amanda Psyrri
12:00 - 13:30	Lunch	

Neo-adjuvant and adjuvant IO for surgical HNC patients

CHAIR : Giovanni Succo, Stefan Lang

13:30 - 14:00	BMS Symposium: The science behind neo-adjuvant IO versus adjuvant IO, or both	
14:00 - 14:30	Defining pathological response after IO	Senada Koljenovic
14:30 - 15:00	Imaging for IO response evaluation	Patrick Hagmann
15:00 - 15:30	Coffee break	

Clinical trial landscape

CHAIR : Sefik Hosai, Mario Fernandez Fernandez

15:30 - 16:00	Adjuvant IO for HPV negative and positive HNSCC	Andreas Dietz
16:00 - 16:30	Neoadjuvant combined with adjuvant IO for HPV negative HNSCC	Christophe LeTourneau
16:30 - 17:00	Adjuvant IO for high-risk disease HNSCC	Yun-Gan Tao

PERI-OPERATIVE IMMUNOTHERAPY FOR HEAD AND NECK CANCER

Day 2 - Friday 09th January 2026

Round tables with prepared questions

CHAIR : Vin Paleri

08:45 - 09:00	Introduction to the round tables	Christian Simon
09:00 - 9:45	How to resect after neo-adjuvant IO	Christian Simon
09:45 - 10:30	Adjuvant, neo-adjuvant or both	Irene Brana
10:30 - 11:15	Neo-adjuvant treatment: Combinations of IO with Chemo	Paolo Bossi
11:15 - 12:00	Coffee break	
12:00 - 12:45	Neo-adjuvant treatment: Modes of applications	Christophe Le Tourneau
12:45 - 13:30	Response evaluation: How?	Senada Koljenovic
13:30 - 14:15	Adjuvant treatment after IO	Silke Tribius

End of the event
