

15th GERPAC conference

10th European GERPAC conference

October 3, 4 & 5 2012 – Ponant Peninsula France

# Preparation of 5 FU's infusors: from anarchy to dose banding

Stéphanie Martignoni, Dr. Grégory Podilsky, Dr. Béatrice Gay, Prof. André Pannatier

UNIVERSITÉ  
DE GENÈVE

FACULTÉ DES SCIENCES  
Section des sciences  
pharmaceutiques

Centre hospitalier  
universitaire vaudois

# Facts & Aims of the study

**F  
A  
C  
T  
S**

Stability **30 days**

## RATIONALISATION OF PRODUCTION WITH THE DOSE BANDING?

**A  
I  
M  
S**

- A better **organisation** at the pharmacy unit
- To improve **deadlines** for infusor's delivery
- A decrease of infusor **returns**

# Method

1

## Feasability study

1.1

**Retrospective analysis** of 2010's production

1.2

**Presentation** of the concept to the medical staff

1.3

**Selection** of standardised dosage

2

## Implementation of dose banding

# Retrospective analysis

# Retrospective analysis

N=781

= **52** dosages

# Retrospective analysis

N=781

Dose banding with an interval of +/- 10%

# Retrospective analysis

N=781

Dose banding with an interval of +/- 5%

# Feasability study of standardisation of doses

Low cost

Frequency of use  
(800/ year)

Agreement of clinicians

Feasability study

Stability<sup>1,2</sup>

Repetitive dosage

A PRIORI

<sup>1</sup> Stabilis 4.0

<sup>2</sup> Manufacturer Data

RETROSPECTIVE ANALYSIS

A POSTERIORI

# Implementation of dose banding

# Preliminary Results

Results will be analysed **6 months later** (Beginning of 2013)

**After 2 months...**

Dose banding production

Over **135** infusors prescribed ...

# Conclusion & Perspectives

Dose banding: More than a myth, a reality...

Computerised prescription (CPOE)

Transport + Administration

# Acknowledgments

Dr. Grégory Podilsky
